Inauguration:

The Free Orthopaedic Medical Camp was formally inaugurated on 18th March 2026 (Wednesday) at the SSMIET campus. The inauguration ceremony was graced by the presence of distinguished doctors and faculty members. The chief guest addressed the gathering, emphasizing the importance of early diagnosis and proper care of orthopaedic problems. The camp was officially declared open, marking the beginning of the medical services for the participants.

Outcome:

A Free Orthopaedic Medical Camp was successfully organized by SSMIET in association with S3 Hospital on 18th March 2026 (Wednesday). The camp aimed to provide medical consultation and awareness regarding orthopaedic issues such as joint pain, fractures, arthritis, and spinal problems. The Free Orthopaedic Medical Camp received a positive response from faculty members, staff, and the local community. A large number of participants benefited from the free consultation and expert medical advice provided by the specialists. Several orthopaedic issues were identified at an early stage, and appropriate guidance for treatment and preventive care was offered. Experienced doctors, including orthopaedic specialists, offered free consultations and guidance to the participants. Many faculty members, staff, and local residents actively took part in the camp and benefited from expert medical advice. Necessary recommendations for further treatment and surgeries were also provided. The camp was well-organized and proved to be highly beneficial in promoting health awareness and early diagnosis of orthopaedic conditions.

The camp successfully raised awareness about bone and joint health and emphasized the importance of timely medical attention. Overall, the programme achieved its objective of promoting community health and well-being.

Conclusion:

The Free Orthopaedic Medical Camp was successfully conducted and achieved its intended objectives. It provided valuable medical support and created awareness about orthopaedic health among the participants. The initiative was well-received and highlighted the importance of organizing such community-oriented programmes regularly. Overall, the camp contributed positively to promoting health, early diagnosis, and well-being in the community.
