Profile

Deena Dayalan M J
Founder & CEO | Technical Trainer | Passionate Educator
I am the Founder and CEO of a startup based in Madurai, with over **11 years of diverse experience** across multiple domains including **Technical Support, Software Development, Business Process Outsourcing, Lecturing, and Technical Training**.
Driven by a deep passion for teaching, I transitioned into the education and training sector to empower the next generation with industry-relevant technology skills. My mission is to guide students towards a brighter future by making complex technologies accessible, practical, and engaging.

Skills

C and C++	Data Science and Data Analyst
UI and UX	Graphic Designing
PHP and Laravel	Python and Django
Java and Spring Boot	Mobile App Development
Game Development	Digital Marketing

Professional Experience

Skandalab, *Founder & CEO , Madurai*　　　　　　　　　　　06/2024 – Present

I'm the Founder and CEO of a startup in Madurai, with over **11 years of experience** in different fields such as **Technical Support, Software Development, BPO, Teaching, and Technical Training**. My passion for teaching led me to move into the education and training space. I aim to help students learn the latest technologies in a simple, practical, and career-focused way, so they can build a bright future.

Elysium Group of Companies, *Software Trainer and Developer, Madurai*　　　11/2022 – 06/2024

I have **successfully delivered software projects to students** in areas such as **Web Development, Data Science, and Mobile App Development**. At the same time, I have also been actively involved in **conducting technology and tool-based training sessions at various colleges**, helping students gain hands-on experience and real-world knowledge.

Full Stack Trainer, *KGISL Micro College, Coimbatore*   03/2022 – 11/2022

I worked as a **Technical Trainer**, where I was responsible for training students in **job-oriented technologies and tools** such as **HTML, CSS, JavaScript, Node.js, React.js, Express.js, Java, Python, MongoDB, MySQL**, and more. Along with teaching the core concepts, I also **guided students through real-time projects**, helping them gain practical experience aligned with current industry needs. This role allowed me to **support and mentor students towards job readiness**, making it one of the most fulfilling and impactful experiences in my career.

Software Developer, *TVM Signalling & Transportation Private Limited, Bangalore*   08/2021 – 03/2022

I worked as a **Software Developer** on **railway projects** in this company, where I gained valuable experience in understanding how real-time projects are executed. Through this role, I learned about the **end-to-end development process**, including **work allocation, report generation, debugging, and delivering effective solutions** to real-time issues. This experience helped me build a strong foundation in handling **live project environments.**

Projects

Matrimony Application, *PHP with MySQL*

Portfolio, *React Js and Node Js*

Admin Dashboard, *Python with Django Framework*
