Event Report
One Day Seminar on
“Entrepreneurship Development with an Innovative Digital Platform”

Date : 21.08.2023

Venue: Seminar Hall-03

Time : 10.30am-12.30pm

Introduction:

The "Entrepreneurship Development with an Innovative Digital Platform" seminar brought together a diverse group of entrepreneurs, academics, industry experts, and students to explore the intersection of entrepreneurship and digital innovation. The event aimed to provide insights into the evolving landscape of entrepreneurship in the digital age and how innovative digital platforms are shaping this landscape.

Agenda:

The seminar was structured to offer a comprehensive understanding of the topic. The agenda included:

1. The event began with welcoming remarks from Mr. S. Vignesh Balaji, II-B.Com (PA), SSM College of Arts and Science
2. Presidential Address delivered by Dr.N.Sampathkumar, Principal, SSM College of Arts and Science. Dr.N.Sampathkumar said that in this era of rapid technological advancements, where digital transformation is reshaping industries and economies, embracing digital platforms has become not just an option, but a strategic imperative for businesses and entrepreneurs. Entrepreneurship has always been at the heart of innovation and economic progress. It is the driving force that fuels job creation, fosters innovation, and propels societies forward.
3. Introduction of the Guest of Honor given by Ms.M.Reena, SSMIET
4. Keynote Address by Mr. A. John Praveen, COE, DIGIIT BUSINESS SERVICES PVT LTD, Trichy.
5. Vote of thanks by Mr. B. Haraiharan, III-Mech, SSMIET

Key Takeaways:

1. The digital landscape has transformed the way businesses are conceptualized, operated, and scaled.
2. Innovative digital platforms offer unprecedented opportunities for startups to reach wider audiences and access global markets.
3. Collaborative ecosystems are essential for the growth of digital entrepreneurship, fostering innovation and knowledge exchange.
4. Data-driven decision-making is crucial for optimizing digital strategies and achieving sustainable growth.

Impact:

The seminar left a lasting impact on the participants. Attendees gained insights into the strategies and tools required to navigate the digital entrepreneurship landscape successfully. The event facilitated networking opportunities, encouraging participants to connect and collaborate beyond the seminar.

Future Directions:

Given the positive response and engagement from participants, there is a growing interest in organizing similar events to delve deeper into specific aspects of digital entrepreneurship and innovation. The feedback received will be instrumental in shaping future seminars and workshops to cater to the evolving needs of entrepreneurs and professionals.

In conclusion, the "Entrepreneurship Development with an Innovative Digital Platform" seminar provided a platform for thought-provoking discussions, knowledge sharing, and meaningful connections. It reinforced the notion that embracing digital innovation is not just a choice but a necessity for any aspiring entrepreneur in today's dynamic business landscape.

Introduction

The Entrepreneurship Development Awareness Program on 3D Printing Technology for School Students was organized with the aim to introduce young minds to the innovative world of 3D printing and to inspire entrepreneurial thinking among them. The event sought to educate students about the potential applications of 3D printing technology and how it can be leveraged to solve real-world problems and create business opportunities.

Event Highlights:

Introduction to 3D Printing: The program began with an introductory session on 3D printing technology, its history, and its various applications across industries such as healthcare, aerospace, automotive, and consumer goods. A session on entrepreneurship was conducted to inspire students to think creatively and consider entrepreneurship as a career path. The session highlighted successful entrepreneurs in the field of 3D printing and showcased how innovative ideas can be turned into viable business ventures.

Interactive Q&A Session:

An interactive Q&A session was held where students had the chance to ask questions and clarify their doubts regarding 3D printing technology and entrepreneurship. This session encouraged active participation and fostered a spirit of curiosity among the students.

Date: 08.02.2024

Institution's Innovation Council of SSMIET is planning to organize **Entrepreneurship Outreach program 3D Printing Technology** for the students of St. Mary's Higher Secondary School, Dindigul. We believe that 3D printing is a valuable technology with the potential to revolutionize various industries and equip students with essential 21st-century skills such as creativity, problem-solving, and critical thinking.

Program Objectives:

- Develop an understanding of 3D printing technology and its applications.
- Learn problem-solving and critical thinking skills through project-based learning.
- Enhance creativity and innovation skills.
- Gain exposure to potential future career paths in various fields related to 3D printing.

We are confident that this program will be a valuable learning experience for the students of St. Mary's Higher Secondary School. We are happy to provide any additional information or answer any questions you may have. We are also open to discussing potential collaborations and tailoring the program to best suit the needs of your school.

Thank you for your time and consideration. We look forward to hearing from you soon.

Conclusion:

The Entrepreneurship Development Awareness Program on 3D Printing Technology for School Students served as a pivotal platform to ignite the spark of innovation and entrepreneurship among young minds. Throughout the event, students were not merely passive spectators but active participants in their own learning journey, gaining hands-on experience, valuable insights, and inspiration to explore the realms of entrepreneurship and technological innovation.

At its core, the program aimed to bridge the gap between theoretical knowledge and practical application, laying the foundation for a generation of future entrepreneurs who are equipped with the skills, mindset, and resources to navigate the dynamic landscape of the 21st-century economy. Through a combination of interactive sessions, real-world case studies, students were exposed to the transformative potential of 3D printing technology and its role in driving innovation across diverse industries.

One of the key takeaways from the program was the importance of fostering an entrepreneurial mindset characterized by creativity, resilience, and a willingness to take calculated risks.

Institution Innovation Council In association with Entrepreneurship Development Cell

Institution's Innovation Council in association with Entrepreneurship Development Cell have conducted the Women Entrepreneurship Awareness Programme on **"Unlocking Potential: Nurturing Entrepreneurship Skills for Women Economical Empowerment"** on 14th March 2024.

Ms. R. Elamathi Arul, Director of VAPS, Women Economic Empowerment and Livelihood, and Managing Director of Green Fem, Madurai, is the resource person for this programme . She gave an encouraging speech on Women Entrepreneurship for the third year girl students of all department. Her speech on woman entrepreneurship is a confident and creative. According to her speech an innovative woman desiring economic independence will individually and simultaneously creating employment opportunities for others .

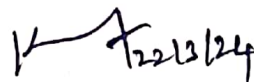

She classified the Women entrepreneurs broadly into five categories:- 1) Affluent entrepreneurs. These women have the financial aid and the necessary resources to start a new enterprise and take business risks. 2) Pull factors – These are educated women living in urban areas with or without work experience who take the risk of a new enterprise with the help of financial institutions and commercial banks. These women take up a new business as a challenge in order to be financially independent. 3) Push factors – These women take up some business activity in order to overcome financial difficulties. Generally widows and single women manage an existing family business or develop a new business due

to difficult family situations. 4) Rural entrepreneurs – These women belong to rural areas and choose a business suiting their resources and knowledge
